

Babylon Tower

Genesis 11:1-9

Ascension Vision - city & cloud - After Noah's flood, the new generations spoke one language. They gathered together to build a city with a tower as high as the sky.

Godless Future - king, hammer, tower, cloud, crown - God visited the city and perceived their intentions. He discerned that this tower would become an idol. Mankind will reject God and worship their own glory.

New Languages - speaking woman & confused man - God created new languages to confuse the builders.

Scattered Settlements - villages, earth, stars - All the people were confused. They organized by language and scattered across the world to form new societies.

Storytellers Sight

- Imagine spending your whole life in a small village. Then one day, you visit a city and see a skyscraper.
- The Devil is not mentioned, but it's obvious that he is involved in man's plans to build this great city. How?
- Why does God say that eventually anything will be possible for mankind if they build this city and tower?
- How did new languages keep the people from finishing the tower? Why did everyone move away?
- How does this story prepare us to meet Abraham?
