

Noah's Ark

Genesis 6:9-22

Grieving God - king, earth, stars, tears - God saw that all humanity became corrupt. He grieved, because he created mankind for worship, but they chose violence.

Catastrophic Flood - cities, corpse, ocean, raincloud - God judged Noah's generation. God told Noah about his plan to send a flood that would drown all creation.

Rescued Remnant - God decided to save Noah and his family from the destruction. He taught Noah how to build a giant ark to protect his family from annihilation.

Creation Caretakers - God sent pairs of every beast and bird to the ark. Noah and his family would feed and care for God's creation through the great disaster.
